

International Workshop on High Productivity Computations
June 21-22
Kazan, Russia

CSR 2010 Workshop on High Productivity Computations

Call for Papers

Organizers: Institute of Informatics of Academy of Sciences of Tatarstan Republic,
Kazan State University

Scope: The workshop is intended to organize the discussions about high productivity computing means and models, including but not limited to high performance and quantum information processing. The workshop proceeds the 5th International Computer Science Symposium in Russia (CSR 2010) which is also held in Kazan, June 16–20. <http://csr2010.antat.ru/index.html>

Submissions: Authors are invited to submit an up to 6 pages abstract which provides an essence of results allowing the program committee to evaluate the work. Submissions of works in progress are encouraged but must be more substantial than a research proposal. Submissions of both original and already presented research are welcome. Submissions should be in Postscript or PDF format and should be sent to

HPC.CSR2010@gmail.com

by **February 25, 2010** with a subject “Submission”. Authors will be able to publish the extended versions of their abstracts in Electronic Proceedings in Theoretical Computer Science.

Notifications will be sent by March 9, 2010.

Invited speakers include:

Kamil Valiev — Yuri Bogdanov
Bob Coecke
Farid Ablayev — Alexander Vasiliev
Sergei Moiseev
(The full list of invited speakers TBA.)
